

Always monitoring your vehicle, capturing video of potential accidents, thefts and incidents.\*

Capturing Full HD 1080P footage with excellent night-time clarity, this front view dash camera also features GPS that embeds both your speed and location data into the video file.

A 140° wide angle lens ensures all images on the road are captured within the frame and Wi-Fi connectivity enables easy playback and transfer of footage to your smartphone.

This accessory is a Ford Licensed Accessory by Directed Technologies and is covered by Ford Warranty. For further information, please visit <https://www.ford.com.au/>
